STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

None of the prior art of record either taken alone or taken in any possible combination would anticipate or would tend to render obvious Applicant's claimed method as set forth in independent claim 1 that is particularly characterized at least by the claimed method steps of "attenuating at least a portion of an invisible electromagnetic radiation field by a presence of an object within a path of invisible electromagnetic radiation, said invisible electromagnetic radiation propagating off axis with respect to the receiver toward a scattering medium" (lines 4-6) and of "detecting the attenuation to indicate a presence of the object" (line 7), taken together and taken in the overall context of independent claim 1.

Dependent claims 2-15 are allowable for at least the reasons for which independent claim 1 is allowable.

None of the prior art of record either taken alone or taken in any possible combination would anticipate or would tend to render obvious Applicant's claimed method as set forth in independent claim 16 that is particularly characterized at least by the claimed method steps of "attenuating at least a portion of diffuse source background radiation received at the receiver by a presence of an object"

(lines 4-5) and of "detecting the attenuation to indicate a presence of the object" (line 6), taken together and taken in the overall context of independent claim 16.

Dependent claims 17-18 are allowable for at least the reasons for which independent claim 16 is allowable.

None of the prior art of record either taken alone or taken in any possible combination would anticipate or would tend to render obvious Applicant's claimed method as set forth in independent claim 19 that is particularly characterized at least by the claimed method steps of "attenuating at least a portion of electromagnetic radiation received at the receiver by a presence of an object" (lines 3-4); of "varying a wavelength of the electromagnetic radiation" (line 5); and "detecting the relative attenuation at a plurality of electromagnetic radiation wavelengths to indicate a characteristic of the object" (lines 6-7), taken together and taken in the overall context of independent claim 19.

Dependent claims 20-21 are allowable for at least the reasons for which independent claim 19 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
